("Bens Creek" or the "Company")**

Further rail delivery

Bens Creek Group Plc (AIM: BEN) is pleased to announce that, further to the announcement released on 6 June 2022, a second train with 100 cars has arrived on the Bens Creek mine and will be loaded with a second batch of 11,000 clean tons of its High Vol B product for delivery to Integrity Coal Sales Inc. ("Integrity"), the Company's offtake partner.

A third 100 car train has been booked, which we expect to arrive during the current month.

Adam Wilson, Chief Executive Officer of Bens Creek, commented:

"I am delighted we are able to secure the immediate arrival of our second train following the arrival of the first train, as announced on Monday, 6 June 2022. The speed of commissioning the second train attests to our strategy of production and delivery to our offtake partner, Integrity."

"We now expect train deliveries of our product to Integrity will be regularised to enable fulfilment of our commitments to Integrity and therefore we do not intend to announce subsequent rail deliveries as they occur."

"Again, I would like to thank Integrity and our operational team at Bens Creek who have worked tirelessly to ensure we were able to secure the arrival of the second train so soon after the completing the loading of the first train."
